Luxury Suites

Your suite awaits you...

Elite Suites | Mobile Suites | Select Suites

Living... Loving... Luxury.

The time is right, you've made the decision and now you've discovered what so many satisfied Drv owners proudly proclaim … "We Love Our Drv Luxury Suite"!

Drv promises and delivers on what today's extended-stay travelers and full-time fifth wheel residents demand most. Efficient designs, with an abundance of quality feature, reliable innovative engineering and comfortable, beautiful interior decors.

Whether your preference is Elite Suites, Mobile Suites or Select Suites, or perhaps one of the many new 43' semi-customizable suites, you can be confident that you've chosen the very best.

I felt compelled to write and express my appreciation for my 2006 Elite Suites 36TK3. My wife and I tow with a 2006 Dodge one-ton truck and our fifth wheel is equipped with the TrailAir Air Pin Box and Center Point Suspension, it tows like a dream. We chose the Elite Suites because of the attention to detail and design. We so enjoy the comfortable floorplan and quality amenities, we feel like we are home. When we arrive at our destination we feel great and are excited to stay in such luxury.

– Dale and Wanda in Columbia, MO

We are now Certified GREEN by TRA Certification™

THE ONLY TRUE FOUR SEASON COACH

Superior engineering assures year round comfort.

Luxury Suites

Living... Loving... Luxury.

Your suite awaits you...

www.**drvsuites**.com

Just a note to express how happy we are with our new Mobile Suites 36TK3. We had a great tour at the DRV Factory. It was very informative and friendly. We purchased our unit in April of 2007 and it's the first trailer we have owned that's been trouble free - been camping all summer. It's very comfortable and we've received many compliments on it. We would recommend this unit to anyone.

– Bob and Lou in Ontario Canada

We have lived full-time in our Mobile Suites 36TK3 coach for just over two years and have thoroughly enjoyed the home-like amenities in our home on wheels. The "R" values have made for exceptional comfort in both summer and winter. "Dollar for Dollar" we don't think there is a better fifth wheel currently on the market.

– Ron in Granbury, TX

Now Available...

A full line of 43' luxury suites are available in the Mobile and Elite lines.

36KSSB3 • New England Cherry with Desert Oasis décor

SELECT SUITES

All New Sub-Zero Thermal Pack with High Density Wool Insulation – Standard on all Suites

We Really Love Our Level-Up™ Leveling System

(Patent Pending)

A revolutionary advancement in engineering available on DRV luxury suites.

Optional one-touch auto leveling.

- Finger tip control of switch at exterior panel
- Levels accurately every time - in just seconds!
- Powerful dependable hydraulics
- Automatically finds level to within a tenth of an inch
- No more driving up onto blocks
- No more bending and stooping

"My Level-Up™ system, installed on my Mobile Suite by DRV, is unbelievable and has cut my set-up time in half. Now I can pull in, level the unit side to side, unhook and level front to rear just as easily. I appreciate the added stability of having six stabilizer legs, rather than just four. The power of the hydraulics is really impressive." – Gary "Ponch" McDonal in Illinois

Optional Exterior Full Body Paint with Window Silks

Pearl Exterior

Garnet Exterior

Sapphire Exterior

Platinum Exterior

To appreciate the true metallic nature of these rich automotive colors see your DRV dealer for accurate paint samples. NOTE: Other custom color exterior packages are available, please ask your dealer for more details.

All new "Tow Max" Running Gear Straight Liner™ Tow and Haul System

Straight Liner™ Benefits Include:

- Increased fuel mileage
- Decreased tire wear
- Eliminates axle steering, which greatly reduces sway
- Improves safety when towing and hauling a fifth wheel trailer

Additional Features:

- Heavy duty 17.5 "H" truck tires and wheels
- 5/8" wheel mounting studs with truck type clamp flanged nuts
- Heavy duty shocks
- 8,000 lb. axles – 8 ton, 12 ton on triple
- Automotive hydraulic Kodiak® disc brakes
- Sealed automotive type wheel bearings
- Heavy duty greaseable suspension
- Trail Air® air ride system with dual side to side leveling controls

Advances in Engineering Excellence

FEATURES & BENEFITS From the ground up, all units are built with automotive style components. Our innovative designs make it easier to transport, set up and maintain your unit.

Structure

F: Professionally designed and tested 15" steel box tube chassis. (Select Suites - 12" I-beam frame)
B: Super strong foundation to build a lasting, high quality fifth wheel.

F: All-weather heavy duty aluminum floor system.
B: The floor is screwed and bolted together and will not rot over time. Also, we do not use staples which eventually work up through the floor covering.

F: R29 insulated frame floor system with three weather barriers.
B: Warm floors for extended or full time use: and keeps out condensation.

Technology

F: **New** state of the art **Level-Up™** leveling system (patent pending) and industrial hydraulic system.
B: Delivers maximum convenience and power to level your unit side-to-side and operate front and rear stabilizers and room slide outs.

F: **New** automotive style Kodiak® disc brakes.*
B: Limited lifetime warranty; smoother stopping; shorter stopping distance; low maintenance cost.

F: Heavy duty 8,000 axles with sealed automotive bearings and EquaFlex® rubber equalizer.*
B: Larger carrying capacity; less axle problems; low maintenance; best ride quality available.

F: Heavy duty Goodyear® tires and aluminum eight bolt wheels.*
B: Highest quality tire manufactured for RVs. Special tread pattern to dissipate heat. Tires are regroovable for miles and miles of safe use. Wheels are light weight and will not rust.

F: Greasable suspension with bronze bushings.
B: Ease of maintenance and long-wearing.

Sturdy

F: 3.25" aluminum framed walls with R16 insulated rating. Highest R rating in the industry.
B: Lightweight; lower heating and cooling cost; noise reduction

F: Radiused aluminum roof rafters on 16" centers.
B: Lightweight; improved water run off; maximum load capacity per square foot.

F: R25 insulated roof system with plywood and rubber or fiberglass covering.
B: Improved weather barrier; sound deadening; low maintenance; lower heating and cooling costs.

F: Soft touch interior ceiling.**
B: Sound proofing; easy to clean; extra insulation.

Refined

F: Conveniently located wall switches control all lighting.
B: Fingertip control of all task and decorative lighting.

F: Overhead room lighting on dimmer switches.
B: Personal light control.

F: Designer cabinets throughout the unit.
B: Optimal storage and convenience.

Reliability

- **New Level-Up™** leveling system.
- **New** industrial hydraulic jacks.
- High pressure hydraulic lines with metal fittings.
- **New** individual push button slide room controls.
- **New** industrial stabilizer jacks located and wind tested to provide maximum stability.
- Heavy gauge UL copper wiring.
- **New** residential water manifold.
- Convenient lights at all exterior service locations.
- **New** safe and reliable LED lights.
- Mid unit turn indicator.
- Gel coat fiberglass walls and exterior doors.
- 36 month limited warranty.
- 1/2" plywood roof decking.
- Extra sound proofing in floor, walls and roof.
- Engineered back up lights.**
- Tip out tinted safety windows.
- Over sized entry step.
- **New** automotive disc brakes.
- Pull out battery and LPG bottle trays.**
- Over size basement storage doors with gas lift cylinders.
- Furnace return air replaceable filter.
- **New** automotive painted exterior graphics.
- Tough skin special coated rock guard.**

*** Available Option on Select Suites**
**** Not Available on Select Suites**

NOTE: Some features shown are exclusive to specific makes and models. Please review the complete Standards and Options list for availability.

The heating and A/C system, featuring automatic dual zones for comfort, received the "standard of excellence" award for best design and performance. The attractive soft touch ceiling combines durability, sound proofing and an added measure of insulation.

Frameless windows.

KeyTouch Security entry.

Automotive L.E.D. stop, turn, tail and clearance lights for reliability, greater visibility and safety.

Contemporary design fiberglass rear cap and detachable ladder.

Abundant basement storage for extended living.

DRV installs an optional TrailAir® Tri-Glide air pin box. Trailair utilizes noise, vibration and harshness testing to engineer a smoother ride and better handling.

Coach-Net®
EMERGENCY ROADSIDE ASSISTANCE
is provided with purchase of each Suite

3 1/4" thick sidewalls with two moisture barriers and R16 insulation results in increased efficiency of heating/cooling, and better sound insulation qualities.

5/8" T/G exterior plywood is glued and screwed to the aluminum floor framing, then bolted to the steel frame.

Aluminum sidewall is bolted to the floor.

High strength aluminum trussed roof rafters accommodate extra thick R25 roof insulation system.

Our frames are engineered to accommodate the largest capacity water holding tanks in the industry. (See specifications for capacities)

Our powerful hydraulic system is integrated into the frame providing for smooth, reliable operation of power expansions and leveling jacks.

Automotive type 12V A/C wire along with heavy wiring provides all the power to live comfortably in your Suite. A centralized command center allows ease of operation.

15" frame depth provides incredible strength as well as space for R29 floor insulation. (Select Suites 12" I-beam frame)

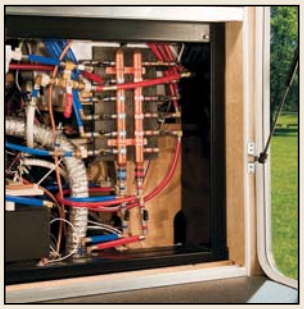
Heavy duty industrial front and rear hydraulic jacks are installed at a 5° angle to provide for maximum stability.

Automatic **Level-Up™** option featured on page 26.

Conveniently located multi-function hook-up center.

Heavy duty, thick baggage door with slam locks.

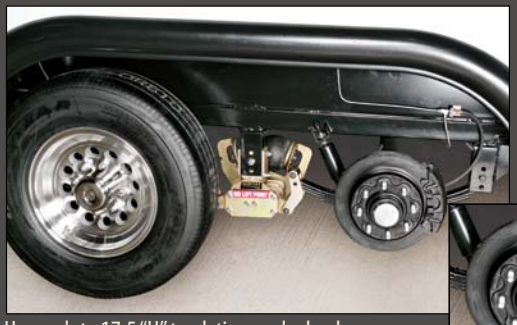
Heavy duty industrial hydraulic pump powers the leveling jacks and sliderooms with independent controls.



Water distribution manifold system for even water flow through-out the Suite. Conveniently select individual lines for easy maintenance.

Screened storm door with removable upper and lower acrylic panels.

Easy-twist nylon fastener.



Heavy duty 17.5 "H" truck tires and wheels

We care about your safety... that's why we factory install the Kodiak® automotive style disc brake system* providing for:

- smoother stopping◆
- significantly shorter stopping distances◆
- lower maintenance costs◆

◆ When compared to Drum Brakes

Equa-Flex®, by TrailAir®, smoothes out rough roads and protects the unit and its contents. (Standard on all units)
