

2022 YAMAHA BOATS

YAMAHA

Revs Your Heart

255X

RUN THE WATER

Yamaha Boats combine design, engineering and craftsmanship to create the gold standard for family fun on the water. Yamaha Boat owners are different. They expect more. They do more. They dream big. And they need a boat designed in a pioneering spirit with forward thinking innovations that exceed expectations. For over 60 years, Yamaha has designed, tested, fine-tuned and perfected marine products. For 2022, Yamaha Boats open a new chapter in that history with the industry's most spacious 19-foot boats, the value packed 21-foot line, the trend setting 25-foot boats, stunning 27-foot models, the most surfable jetboats in the Wake category and the family fishing FSH line. Regardless of which you pick, Yamaha offers a best-in-class experience unlike anything else out there that is built for those ready and willing to #RunTheWater.

THE YAMAHA DIFFERENCE

At the heart of every Yamaha Boat is an internal jet propulsion system that has become the envy of the competition. It's a compact, ultra-efficient design that sits deep inside the hull, opening up room on the deck for Yamaha's spacious cockpit design and signature stern swim platform. And if that wasn't enough, it's a high performing system, with low maintenance, little bow rise, unbelievable shallow water capabilities and remarkable handling.

YAMAHA MARINE ENGINES

Powering Yamaha Boats you will find the most respected, award winning and dependable motor on the water today. No one builds a marine engine like Yamaha, and that's been demonstrated time and time again in all water conditions and in all forms of competition. Yamaha Marine Engines are extremely powerful and fuel efficient while continuing to prove their renowned reputation for being the most reliable engines on the water today.

WE STAND BEHIND EVERY BOAT WITH THE YAMAHA NAME ON IT

- Limited Lifetime Structural Warranty for Original Purchaser*
- 10 Year Limited Transferable Structural Warranty
- 3 Year Limited Component Warranty

**Complete details in written Limited Warranty.*

YAMAHA TODAY AND TOMORROW

As the #1 brand on the water, Yamaha Rightwaters™ is the leading national marine sustainability program. Rightwaters reinforces Yamaha's long-standing dedication to preserving the natural resources we have today so that our customers can continue to enjoy them tomorrow. We accomplish this through education, partnership, advocacy and leadership focused around marine stewardship, sustainable manufacturing practices and responsible product use. With Rightwaters we can all do our part to ensure a healthy marine ecosystem for generations to come. Learn more at: yamahaboats.com/yamaha-rightwaters.
